> Afternoon English communication and Business classes:

Students work in cross cultural, cross discipline teams and:

- develop their English communication skills to improve their self-confidence;
- develop business skills that will help them when looking for employment;
- learn to create and develop new product ideas for potential commercialisation;

And 'Pitch' their idea to professional Business judges.

An opportunity for students to:

- › Learn and improve their knowledge in academic disciplines + Improve their English communication skills;
- › Enhance their CV and their global employability skills by working in cross-cultural and cross-discipline teams;
- › Discover the student atmosphere and the teaching environment of the University of Manchester;
- › Discover British culture, Manchester and North-West of England through local cultural activities and leisure trips;
- › Meet international students and make new friends.
